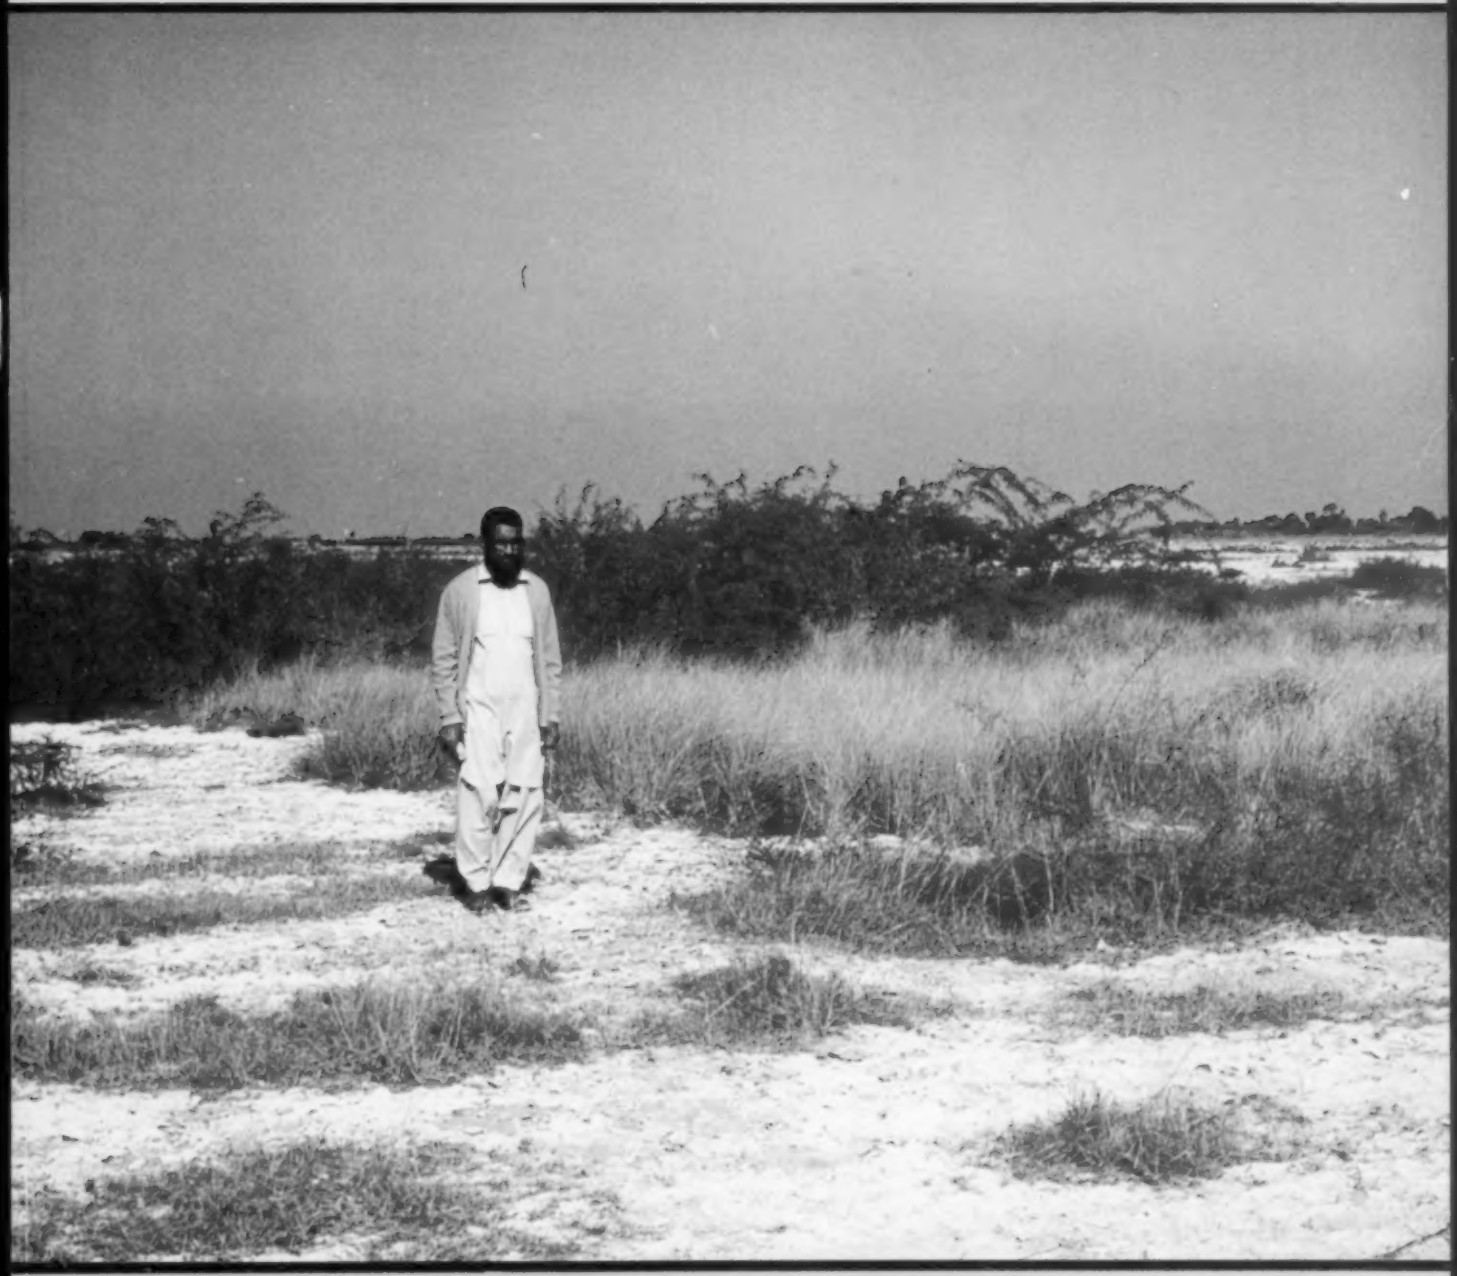
Outlook on agriculture

An international review of agricultural science and technology



Pergamon Press Oxford · New York • Toronto • Sydney • Paris • Frankfurt

Outlook
on agriculture

Editor

Trevor I. Williams, M.A., B.Sc., D.Phil., C.Chem., F.R.S.C., F.R.Hist.S.

Editorial Board

Dr Peter Brumby,
International Livestock Centre for Africa, Addis Ababa, Ethiopia

Professor R. Q. Cannell,
Welsh Plant Breeding Station, Aberystwyth, UK

Professor J. B. Dent,
Lincoln College, New Zealand

Dr John Finney
ICI Plant Protection Division, Jealott's Hill, UK

Professor J. D. Fryer,
Abingdon, UK.

Dr D. J. Greenland,
International Rice Research Institute, Manila, Philippines

Dr C. James
International Maize and Wheat Improvement Center, Mexico

Professor Donald R. Nielsen,
Department of Land, Air and Water Resources, Davis Campus, California, USA

Dr M. S. Swaminathan, FRS,
International Rice Research Institute, Manila, Philippines

Dr L. D. Swindale,
International Crops Research Institute for the Semi-Arid Tropics, Andhra Pradesh, India

Dr F. P. W. Winteringham,
Harlech, UK

Outlook on Agriculture was founded by Imperial Chemical Industries in 1956 and was published by them until the end of 1981, when responsibility for its future publication was entrusted to Pergamon Press.

The guiding principles in the choice of articles to be published are the intrinsic interest of the subject, its importance, and the authority of the writer.

While most articles are specially commissioned, the Editor will always be glad to consider contributions conforming to these criteria.

Copyright © 1986 Pergamon Press Ltd

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. However, assignment of copyright is not required from authors who work for organisations which do not permit such assignment. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature and translations. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, electrostatic, magnetic tape, mechanical, photocopying, recording or otherwise, without permission in writing from the copyright holder.

Photocopying information for users in the U.S.A.
The Item-Fee Code for this publication indicates that authorization to photocopy items for internal or personal use is granted by the copyright holder for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service provided the stated fee for copying beyond that permitted by Section 107 or 108 of the United States Copyright Law is paid. The appropriate remittance of $.50 per page is paid directly to the Copyright Clearance Center Inc., 21 Congress Street, Salem, MA 01970. The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for such copying. In case of doubt please contact your nearest Pergamon office.
The Item-Fee Code for this publication is: 0030–7270/86 $0.00+.50.

Annual Subscription rates 1986 (including postage and insurance): $77.00 (£45.00). Two-year rate: $146.30 (£85.80). Subscription enquiries from customers in North America should be sent to: Pergamon Press Inc, Maxwell House, Fairview Park, Elmsford, NY 10523, USA, and for the remainder of the world to: Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, UK.

This journal is now listed in *Current Awareness in Biological Sciences* Send to your nearest Pergamon office for a free specimen copy.

Microform Subscription and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

Outlook on agriculture

Volume 15, No 1.

A review journal largely concerned with basic problems of agricultural science and modern techniques for dealing with them

Contents

Jose M. Toledo and Gustavo A. Nores	2	Tropical pasture technology for marginal lands of tropical America
R. K. Bain and G. M. Urquhart	10	The significance and control of stomach worms in British cattle
Stephen Peel	15	Efficient use of temperature grasslands; lessons from the United Kingdom and New Zealand
N. O. Espinoza, R. Estrada, D. Silva-Rodriguez, P. Tovar, R. Lizarraga, and J. H. Dodds	21	The potato: a model crop plant for tissue culture
G. P. Chapman	27	Modified fertilisation in plants: a strategy for directed genetic change?
R. Gareth Wyn Jones and John Gorham	33	The potential for enhancing the salt tolerance of wheat and other important crop plants
Elizabeth J. Ouldridge and David J. Rowlands	40	New approaches to the epidemiology of foot and mouth disease
	46	Book reviews
Inside back cover		Calendar

Front cover illustration:
Salt affected land near Lahore, Pakistan.
See article by R. G. Wyn Jones and J. Gorham, p. 33.

Contributions for publication should be addressed to the Editor, at Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW

VOL. 15 1986

Outlook on agriculture

Volume 15, No 2.

A review journal largely concerned with basic problems of agricultural science and modern techniques for dealing with them

Contents

J. F. Wickins	52	Prawn farming today: opportunities, techniques, and developments
R. C. Amsden	61	The use of the helicopter in agriculture
J. A. Allan	65	Remote sensing of agricultural and forest resources from space
Antonio P. Tianco	70	Chemical and biological prospects for improving sugarcane productivity
Robert W. Howell	75	Soybeans
D. M. Masaba, J. B. O. Owuor, and M. P. H. Gathaara	88	Arabica coffee production in Kenya: an overview
D. T. Seal	93	Forestry research in the British uplands
	98	Book reviews
Brian W. Young	80	The need for a greater understanding in the application of pesticides

Front cover illustration:
Face to face with the jumbo tiger prawn *Penaeus monodon*. (Photograph courtesy of Unilever Research Ltd, UK.)
See article by J. F. Wickins, p. 52.

Contributions for publication should be addressed to the Editor, Pergamon Journals Headington Hill Hall, Oxford OX3 0BW

VOL

198

Outlook on agriculture

Volume 15, No 3.

A review journal largely concerned with basic problems of agricultural science and modern techniques for dealing with them

Contents

Joseph E. Laferrière	104	Interspecific hybridization in sunflowers: an illustration of the importance of wild genetic resources in plant breeding
Jan Bay-Petersen	110	New technology for low-income farmers in developing countries
Donalda M. Smith	115	Health and disease in farm workers
R. T. Wilson	121	Poultry production in sub-Saharan Africa
C. A. Atkins	128	The legume/*Rhizobium* symbiosis: limitations to maximizing nitrogen fixation
J. J. Mortvedt	135	Methods of applying micronutrient fertilizers to correct deficiencies of crops
A. J. Williams	141	The efficiency of wool production
David Sargent	151	Intensive farming – the producer's dilemma
	156	Book Reviews
Inside back cover		Calendar

Front cover illustration:
Merino rams.
See article by A. J. Williams, p. 141.

Contributions for publication should be addressed to the Editor, Pergamon Journals Ltd, Headington Hill Hall, Oxford OX3 0BW

VOL. 15 1986

Outlook on agriculture

Volume 15, No 4.

A review journal largely concerned with basic problems of agricultural science and modern techniques for dealing with them

Contents

R. T. Burchill and R. B. Maude	160	Microbial deterioration in stored fresh fruit and vegetables
Colin Barlow and Corrine Condie	167	Changing economic relationships in Southeast Asian agriculture, and their implications for small farmers
Margit Gáspár and Peter Horváth	179	Present and future utilization of by-products in the feeding of ruminants in Hungary
P. W. F. de Waard	186	Current state and prospective trends of black pepper (*Piper nigrum* L.) production
F. Rosillo-Calle and H. Rothman	196	The Brazilian national alcohol programme: some technological and socio-economic aspects
Jeffrey O. Dawson	202	Actinorhizal plants: their use in forestry and agriculture
N. Ahmad	209	Occurrence, use and management of tropical wetlands
P. R. W. Hudson	218	High technology options for sheep shearing: improved shearing devices
	225	Book reviews
	228	Index
	Inside back cover	Calendar

Front cover illustration:

Subsistence agriculture in Sumatra, Indonesia. Bananas, sugarcane, cassava and dry rice are all grown together in a cleared *ladang*. High-yielding materials rarely penetrate such places.
See article by Colin Barlow and Corrine Condie, p. 167.

OUTLOOK ON AGRICULTURE INDEX 1986

Volume 15

Author Index

AHMAD, N. Occurrence, use and management of tropical wetlands. 209

ALLAN J. A. Remote sensing of agricultural and forest resources from space. 65

AMSDEN, R. C. The use of the helicopter in agriculture. 61

ATKINS, C. A. The legume/*Rhizobium* symbiosis: limitations to maximizing nitrogen fixation. 128

BAIN, R. K. The significance and control of stomach worms in British cattle. 10

BARLOW, COLIN Changing economic relationships in Southeast-Asian agriculture and the implications for small farmers. 167

BAY-PETERSEN, JAN New technology for low-income farmers in developing countries. 110

BURCHILL, R. T. Microbial deterioration in stored fresh fruit and vegetables. 160

CHAPMAN, G. P. Modified fertilisation in plants: a strategy for directed genetic change? 27

CONDIE, CORRINE see BARLOW, COLIN 167

DAWSON, JEFFREY O. Actinorhizal plants: their use in forestry and agriculture. 202

DODDS, J. H. see ESPINOZA, N. O. 21

ESPINOZA, N. O. The potato: a model crop plant for tissue culture. 21

ESTRADA, R. see ESPINOZA, N. O. 21

GÁSPÁR, MARGIT Present and future utilization of by-products in the feeding of ruminants in Hungary. 179

GATHAARA, M. P. H. see MASABA, D. M. 88

GORHAM, JOHN see WYN JONES, R. GARETH 33

HORVÁTH, PETER see GÁSPÁR, MARGIT 179

HOWELL, ROBERT W. Soybeans. 75

HUDSON, P. R. W. High technology options for sheep shearing. 218

LAFERRIÈRE, JOSEPH E. Interspecific hybridization in sunflowers: an illustration of the importance of wild genetic resources in plant breeding. 104

LIZARRAGA, R. see ESPINOZA, N. O. 21

MASABA, D. M. Arabica coffee production in Kenya: an overview. 88

MAUDE, R. B. see BURCHILL, R. T. 160

MORTVEDT, J. J. Methods of applying micronutrient fertilizers to correct deficiencies of crops. 135

NORES, GUSTAVO A. see TOLEDO, JOSE M. 2

OULDRIDGE, ELIZABETH J. New approaches to the epidemiology of foot and mouth disease. 40

OWUOR, J. B. O. see MASABA, D. M. 88

PEEL, STEPHEN Efficient use of temperate grasslands: lessons from the United Kingdom and New Zealand. 15

ROSILLO-CALLE, F. The Brazilian national alcohol programme. Some technological and socio-economic aspects. 196

ROTHMAN, H. see ROSILLO-CALLE, F. 196

ROWLANDS, DAVID J. see OULDRIDGE, ELIZABETH J. 40

SARGENT, DAVID Intensive farming – the producer's dilemma. 151

SEAL, D. T. Forestry research in the British uplands. 93

SILVA-RODRIGUEZ, D. see ESPINOZA, N. O. 21

SMITH, DONALDA M. Health and disease in farm workers. 115

TIANCO, ANTONIO P. Chemical and biological prospects for improving sugarcane productivity. 70

TOLEDO, JOSE M. Tropical pasture technology for marginal lands of tropical America. 2

TOVAR, P. see ESPINOZA, N. O. 21

URQUHART, G. M. see BAIN, R. K. 10

de WAARD, P. W. F. Current state and prospective trends of black pepper production. 186

WICKINS, J. F. Prawn farming today: opportunities, techniques and developments. 42

WILLIAMS, A. J. The efficiency of wool production. 141

WILSON, R. T. Poultry production in sub-Saharan Africa. 121

WYN JONES, R. GARETH The potential for enhancing the salt tolerance of wheat and other important crop plants. 33

YOUNG, BRIAN W. The need for a greater understanding in the application of pesticides. 80
